Period 2
Member: Richard Wan
Group Name: Tetri
Project Name: Tetri
Description:
Making NES Tetris (classic tetris). The game will have increasing difficulty as the game progresses (increasing level) and a back to back system. Might add some new things to make the game different from classic (don't know yet).
List of current functionalities
Hard Drop
7 bag system
Increasing speed when more lines are cleared
Point system based on # of lines cleared
Rotation counterclockwise and clockwise
Shows next piece
Pieces are colored
Game over screen
Lines clear
